SUMMARY

Frontend Developer with 1.5 years of professional experience building fast, responsive, and clean UIs using React js, Next.js, JavaScript, and Tailwind CSS. I create pixel-perfect designs and smooth user experiences, and I have strong understanding of backend technologies like Node.js, Express.js, and MongoDB for better frontend development.

SKILLS

- **Frontend** : Javascript, Typescript, Tailwind CSS , React , Next Js, Redux, Framer Motion
- **Backend** : Node Js, Express Js, MongoDB , Mongooes , Firebase , JWT
- **Tools** : Github , VsCode , Netlify, Vercel , cPanel

EXPERIENCE

Weero Digital

Junior Software Engineer

April 2024 – August 2025

Mirpur 2 , Dhaka

- Built and maintained user-friendly, responsive front-end interfaces using modern JavaScript frameworks, ensuring seamless cross-device user experiences.
- Integrated RESTful APIs with the front end, ensuring efficient data flow and smooth interaction between UI and backend systems.
- Designed, developed, and optimized robust back-end APIs and core application logic, leveraging Node.js and MongoDB to support scalable, secure, and high-performance features.
- Assisted with deployment and hosting, preparing production builds and uploading web applications to shared and cloud hosting environments.

PROJECTS

Weepoka - Digital Theme Marketplace | React , Express.js , Mongobd , Socket.io

- Built the entire client-side with API integration, including a multi-role admin dashboard for effective management of users, content, and site settings.
- Developed a live chat bot using Socket.io for real-time user communication, enhancing customer engagement.
- Implemented a secure authentication system for freelancer profiles, including role-based access control.

Wee Enterprise - Multi-category E-commerce Platform | React , Express.js , Mongobd

- Implemented core e-commerce features: product catalog, cart/checkout system, and user authentication.
- Built a product comparison tool enabling users to analyze 2 items side-by-side (specs, pricing, reviews).
- Developed a custom admin dashboard to manage products, orders, and user data, streamlining site control.

MeetWave - Online Meeting Platform | Next Js , Express.js , Mongobd , ZegoCloud

- Developed an online meeting platform with real-time video calling using ZegoCloud SDK, supporting multiple participants
- Created user feedback/review system to collect and display meeting experience ratings

EDUCATION

- **BSc in Computer Science and Engineering** 2023 - Present
Southeast University
- **Diploma Engineering in Computer Science and Technology** 2018 - 2023
Tangail Polytechnic Institute
